

Antler Mount Adapter Kit

Precision-machined high-strength aluminum cot mount adapter kit that allows you to install the Antler system mount to the ALFO floor.

- Antler system is installed with a manual foot and does not require bolting through the floor.
- The adapter kit makes it easy to change the location of the antler mount and cot.
- The adapter kit is fully modular and allows you to move the antler kit and cot mount to another vehicle.
- Works with all models of Stryker and Ferno Antler systems.
